

Pyrotechnic Computer Cooling

WHEN THE PYROTECHNICS TURN HOT,
NVENT HOFFMAN KEEPS IT COOL

WHEN YOU NEED YOUR ELECTRONICS PROTECTED IN A HARSH ENVIRONMENT, COUNT ON HOFFMAN COOLING TECHNOLOGY TO COME THROUGH.

Every night, a major theme park operator puts its brand reputation on the line to deliver a spectacular fireworks show on-the-clock.

And every night, they rely on HOFFMAN Cooling air conditioning to cool the vital electronics and information technology of the system, so that the pyrotechnics run precisely and consistently.

The challenge to this unique cooling application is that the HOFFMAN Cooling outdoor air conditioning has to perform in the hot and humid climate of the theme park. Harsh conditions can put extra strain on the work load of an air conditioner. HOFFMAN Cooling's reliability is proven time and again every night the pyrotechnics show fires up.

When you need your electronics protected in a harsh environment, count on HOFFMAN Cooling Technology to come through.
