

Wireway Selection Tool

CONNECT AND PROTECT

Training guide

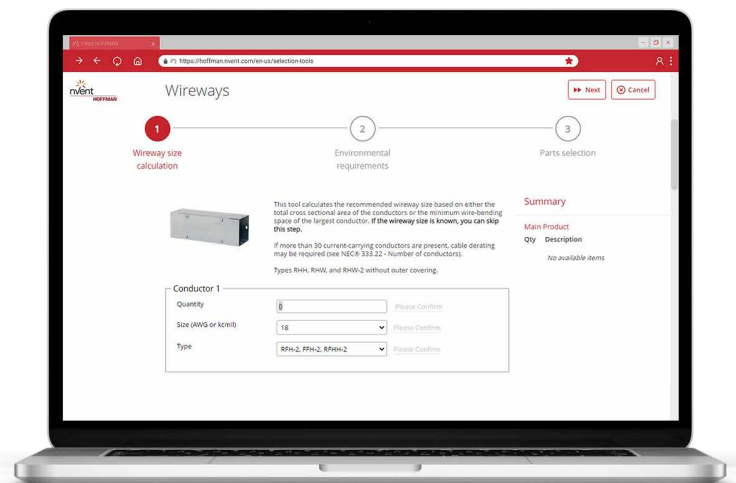

WHERE TO FIND WIREWAY SELECTION TOOL

- Ensure you either Register or Sign into Website <https://hoffman.nvent.com/en-us/>
- Navigate to <https://hoffman.nvent.com/en-us/selection-tools>
- Scroll to find the image below
- Select "Use Tool Now"

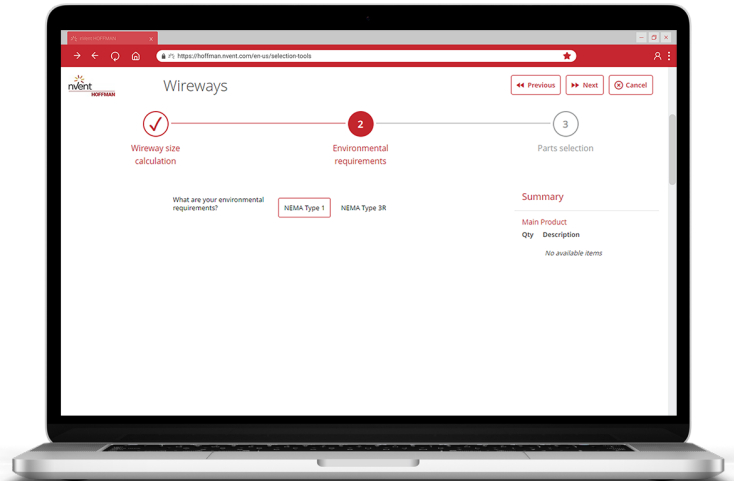

STEP 1: WIREWAY SIZE CALCULATION

- Select quantity of wires for the conductor
- Select Size of wire
- Select Type of wire
- Tool will add more conductors as needed just leave as 0 if no additional conductors are needed
- When all conductors added click "Next" on top right
- Note: If the wireway size is known, you can skip this step by clicking "Next" on top right

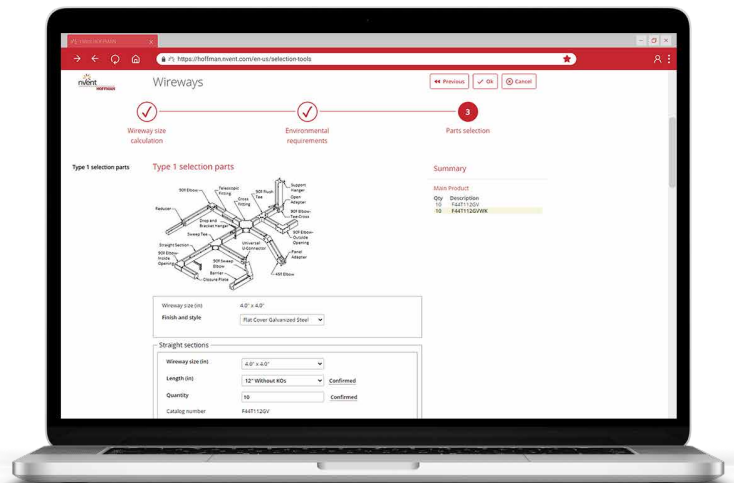

STEP 2: ENVIRONMENT REQUIREMENTS

- Click on the appropriate Environment Requirement
- Next click “Next” on top right
- Note: Tool will tell you if there is only one environmental option for the size selected. You will simply skip to clicking on “Next” on top right

STEP 3: PARTS SELECTION

- Wireway size will already be recommended
- Select “Finish & Style” options
- Locate “Straight sections”
- Select WW Size
- Select WW Length
- Select Quantity
- It will give you a Catalog Number below and off to the right
- It will keep adding more as needed
- Once complete simply leave quantity as zero
- Select “Fittings” as needed and follow same process above
- Select “Hangers” as needed and follow same process above
- Select “OK” on top right once complete

FINAL STEP: BILL OF MATERIAL

- Under products you will see “Wireway bill of material”
- If you’d like to delete and start over, click on trash can

Products		
Qty	Conf	Item
