nVent Recognized for Innovation

9/5/2018

nVent's HOFFMAN Enclosure Named Product of the Year

LONDON--(BUSINESS WIRE)-- nVent Electric plc (NYSE: NVT) ("nVent"), a global leader in electrical connection and protection solutions, announced its HOFFMAN Angled Trough enclosure was selected from more than 150 new products to receive Electrical Construction & Maintenance (EC&M) magazine's 2018 Product of the Year Platinum Award. This is the highest recognition from the publication, which is read by more than 130,000 electrical professionals.

The Angled Trough enclosure, which was also recognized as a 2017 best product by the National Electrical Contractors Association, makes it easier for electrical contractors to safely distribute and enclose wires for indoor commercial applications. By enabling conduit runs through all six sides of the enclosure, including the front, it eliminates the need for manual 90-degree conduit bends and helps cut total installation time by 80 percent. Created for use in wire distribution, junctions and terminations in a variety of indoor commercial applications, the Angled Trough enclosure's patented angled design substantially reduces total installation time, frees up valuable real estate on the wall, and simplifies mounting and assembly.

"We are thrilled to be named Product of the Year by EC&M," said Matt Behrns, Marketing director for nVent. "Our focus is to reduce installation time and costs while improving safety. We also developed an ROI calculator that is specifically designed for use with the Angled Trough enclosure to help customers determine cost and time savings related to their projects."

About nVent

nVent is a leading global provider of electrical connection and protection solutions. We believe our inventive electrical solutions enable safer systems and ensure a more secure world. We design, manufacture, market, install

and service high performance products and solutions that connect and protect some of the world's most sensitive equipment, buildings and critical processes. We offer a comprehensive range of enclosures, electrical connections and fastening and thermal management solutions across industry-leading brands that are recognized globally for quality, reliability and innovation. Our principal office is in London, United Kingdom and our management office in the United States is in Minneapolis, Minnesota. Our robust portfolio of leading electrical product brands dates back more than 100 years and includes nVent CADDY, ERICO, HOFFMAN, RAYCHEM, SCHROFF and TRACER.

nVent, CADDY, ERICO, HOFFMAN, RAYCHEM, SCHROFF, and TRACER are trademarks owned or licensed by nVent Services GmbH or its affiliates.
